

Center for Environmental Justice and Sustainability 2024-2025 Faculty Fellowships

REQUEST FOR PROPOSALS

Fellowship Goals

One of the primary goals of the Center for Environmental Justice and Sustainability (CEJS) is to support the scholarship of faculty and students. We also hope to foster collegiality of EJS scholars on campus and opportunities for multidisciplinary or interdisciplinary scholarship across Seattle University's schools and colleges. This fellowship program is intended to support scholarly research by faculty in all disciplines on topics related to environmental justice or sustainability. The program will provide fellowships for at least two faculty or for one team of two collaborating faculty. CEJS faculty fellows are expected to produce a tangible scholarly product, such as a grant proposal, a peer-reviewed article or artistic presentation that resulted from their participation in the fellowship program.

Eligibility

- Full-time faculty member.
- Must be able to complete the project by June 2025.
- Must be willing to meet the fellowship requirements outlined below.
- Faculty members who hold endowed chairs are ineligible to apply for this fellowship if they receive research funding as part of their chair.
- Prior CEJS faculty fellowship recipients are eligible. The project proposal may be an extension of previous work or may be for an entirely different research area.

Requirements

- Attend one meeting of fellowship recipients per quarter to share ideas and explore possible collaborations on publications or grant proposals as appropriate.
- Present project results to the SU community during spring 2025.
- Complete one tangible scholarly product (article manuscript, grant proposal, peer-reviewed artistic presentation, etc.) and a final report by June 3, 2025.

Compensation

One course release during the 2024-2025 academic year or a \$6000 summer stipend for summer 2024. Requests for a course release must be approved by the department chair or dean prior to application submittal.
