

Campus Building Ventilation and Filtration Tier Ratings

Tier 1	HVAC system is capable of introducing three or more air changes per hour of any combination of outside air or recirculated MERV13 filtered air.
Tier 2	HVAC system is capable of introducing three or more air changes per hour from any source.
Tier 3	HVAC system does not provide three or more air changes per hour, or no mechanical ventilation is present.

† Meets all Tier 1 HVAC requirements with addition of portable filtration unit.
