

Pass/No Pass (P/NP)*

Undergraduate students may elect a Pass/No Pass (P/NP) option as provided for below.

1. P/NP is a student option. Students requesting the P/NP grade option must make their request by completing the Pass/No Pass Grade Option Request Form prior to the last day of classes as noted in the academic calendar. The class and grade roster will not indicate that this option has been selected by the student. The instructor will assign a final letter grade (A-F), which will then be recorded on the transcript as P or NP.
2. D is the minimum grade to earn a P.
3. P/NP is an option for elective and UCOR courses only. Students may take up to one P/NP per quarter and four P/NP courses maximum for their degree. Two of the four P/NP courses may be UCOR courses.
4. P and NP grades are used to calculate satisfactory academic progress, but they do not affect the student's GPA. Credits for all P grades count toward cumulative degree requirements and are included as credits completed on the transcript.
5. If a student selects the P/NP option and withdraws or takes an incomplete grade in the course, the grade assigned will be I or W. When a student removes an I grade after selecting the P/NP option, the P/NP grade will be recorded.
6. The P/NP option may affect graduation with honors, especially for transfer students. A 90- credit minimum in regularly graded (A – D-) courses is required with the appropriate GPA for honors eligibility at graduation. (Policy #75-21)
