

STUDENT ACADEMIC PERSISTENCE

SCHOLARSHIP GUIDANCE

Student Academic Persistence provides guidance for every part of the scholarship application process. We help students find scholarships, write application essays, create scholarship portfolios, file for financial aid, and much more.

RESOURCE REFERRALS

We provide information and referrals to all the different resources on campus. If you ever have a question or concern and you don't know where to go, Student Academic Persistence can help you find the right place.

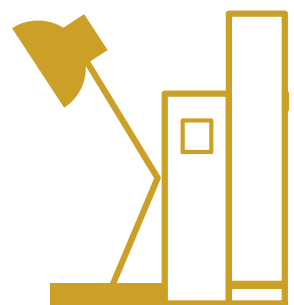

REGISTRATION ASSISTANCE

We can provide help if you run into concerns when it comes to registration. We help students connect with an advisor, think about which courses to take, identify and lift registration holds, and connect students to resources about closed class procedures.

FINDING COMMUNITY

We help students get connected on campus and feel like they belong at SU. We connect students to clubs and organizations, student research opportunities, on campus employment opportunities, and the Education Abroad office.

FINANCIAL WELLNESS

Student Academic Persistence provides resources to students who want to improve their financial literacy and learn more about topics such as budgeting and credit cards. We also help students understand their student loans and different repayment options.

ACADEMIC SUCCESS

We can help students on their path to continued academic success by connecting them to resources on campus such as Learning Assistance Programs. We can also help students reach out to professors and utilize office hours.
